

# Fair Rents (Scotland) Bill

## Introduction

A proposal for a Bill to protect private sector tenants by introducing measures to limit rent increases and to increase the availability of information about rent levels. The consultation runs from 15 May 2019 to 6 August 2019. All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document. Questions marked with an asterisk (\*) require an answer. All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response. Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded. Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here: [Consultation document](#) [Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice attached to this consultation which explains how my personal data will be used

## Aim and approach - rent cap

Q1. Which of the following best expresses your view of capping private sector rent increases annually across Scotland at one percentage point above inflation (measured according to the Consumer Price Index (CPI))?

Fully supportive

**Please explain the reasons for your response.**

I would increase council housing with fair rents and faze out the private sector as I believe that housing should be a human right and not a commodity to be used for private profit.

## Rent level appeals

Q2. Which of the following best expresses your view of providing that, when tenants appeal their rent, rent officers and the First-tier Tribunal would be able to either lower or maintain the rent but not increase the rent?

Fully supportive

**Please explain the reasons for your response.**

I believe that rent should be at a level that is affordable for all.

## Landlord registration scheme

Q3. Which of the following best expresses your view of expanding the landlord registration scheme so that landlords must input the rent that they charge when they register, and update the system when the rent changes?

Fully supportive

Q3. Which of the following best expresses your view of expanding the landlord registration scheme so that landlords must input the rent that they charge when they register, and update the system when the rent changes?

**Please explain the reasons for your response.**

This would help stop unscrupulous landlord increasing rent to unaffordable levels.

## Other options - Rent Pressure Zones

Q4. Which of the following best expresses your view of tackling the problem of rents rising significantly faster than inflation by making it easier for a local authority to apply to create a Rent Pressure Zone (RPZ)?

Fully supportive

**Please explain the reasons for this response.**

This would allow local authorities the ability to protect tenants from above inflation rent increases.

## Financial implications

Q5. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
<b>Government and the public sector</b>					X	
<b>Businesses (including landlords)</b>		X				
<b>Individuals (including tenants)</b>					X	

**Please explain the reasons for your response.**

Government and public service would save money by not having to pay housing benefit to tenants because of high rents. If landlords cant charge a fair rent they should not be in business. Tenants would have reduced cost as they would not be subject to unfair rent increases.

Q6. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

Not sure.

## Equalities

Q7. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, maternity and pregnancy, marriage and civil partnership, race, religion or belief, sex, sexual orientation?

Positive

**Please explain the reasons for your response.**

Should increase equality.

Q8. In what ways could any negative impact of the Bill on equality be minimised or avoided?

By making all discrimination illegal.

## Sustainability

Q9. Do you consider that the proposed Bill can be delivered sustainably, i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Yes

**Please explain the reasons for your response.**

If rents are fair there should be no negative impact on any section of the economy.

## General

Q10. Do you have any other comments or suggestions on the proposal?

No
